

Permeabilization Buffer

- Phosphate buffered saline
- Heat inactivated fetal calf serum (FCS)
- Sodium azide (Fisher 5227)
- Saponin (Sigma S-7900)

Dissolve in 1 liter of 1X PBS:

- 10 ml FCS
- 1 g sodium azide
- 1 g saponin.

Check pH and adjust to 7.4-7.6. Filter through 0.45 μm membrane and store at 4-8°C. This solution is stable for 6 months.
